FROM: Joe Bumgarner / Mark Schuck

DATE: March 17, 2005

SUBJECT: PIT Tag codes for use in Separation by Code System

We have completed all necessary program, project, and study coordination and below is our list of action codes for the WDFW – Snake River Lab. We have attached text files with all of the necessary PIT tag codes by group

Requested Actions at Specific SbyC Facilities

- Location of Actions: Lower Monumental, McNary Dams, John Day, and Bonneville
- Duration and Start Date: Entire Season SbyC is operational in 2005
- General Action Request: Place all tag codes (100%) for actions 1, 2, & 3 into “**Monitor Mode**”, No Action is taken (i.e. fish are treated like they do not have a PIT tag)
- Action 1: Tucannon River endemic stock summer steelhead group
~9,976 PIT tags codes
- Action 2: Touchet River endemic stock summer steelhead group
~10,000 PIT tag codes
- Action 3: Tucannon River wild smolt summer steelhead group
2,500 PIT tags codes

If you have any questions or concerns please contact Joe Bumgarner at 509-382-4755, or Mark Schuck 509-382-1004, and we look forward to the results of this project.
