Dave and Carter,

As discussed in prior emails and letters, University of Idaho personnel again wish to utilize Sort/Signal By Code operations at Bonneville Dam AFF. You have on file our initial letter of request as well as a copy of FPAC's/PTOC letter of approval to initiate SbyC procedures.

This letter is to confirm that we have coordinated with all Columbia River Basin agencies and personnel affected by this SbyC operation. We have permission from these managers to utilize "their" PIT tag codes for this study. Agencies involved are Fish Passage Center, University of Idaho, and Nez Perce Tribe. No codes for which we do not have authorization will be placed into SbyC at Bonneville.

We again thank you for your effort in helping us to achieve our study objectives.

Please contact Steve Lee (509-427-7259) or Chris Peery if you have any additional questions.

Sincerely,

Steven R. Lee  
University of Idaho
